SUBJECT: National Dioxin Study - Reports and Results

FROM: James E. Stiebing, Chief
Surveillance Branch (6ES-S)

TO: ADDRESSEES

I have attached the indicated (x) materials for C. J. Martin,
in Nacogdoches, TX, a National Dioxin Study Tier 3 site:

- ☐ An updated community relations fact sheet.
- ☐ A summary of the results.
- ☒ A draft site summary report for your review and comment.
- ☐ A final site summary report for your information.

Based on the results of the 2,3,7,8 TCDD analysis Surveillance Branch has made the indicated (x) determinations. Selected samples will be analyzed for the higher homologs of the polychlorinated dibenzo-dioxins and the polychlorinated dibenzo furans (PCDD/PCDF). Further evaluation at this facility may be in order once the PCDD/PCDF results are received.

☐ No results for 2,3,7,8 TCDD have been received to date.

☒ No 2,3,7,8 TCDD detected. No further action is necessary at this time in response to the National Dioxin Study.

☐ One or more samples were positive for 2,3,7,8 TCDD. Surveillance Branch by this and/or previous submittals notifies you of these results. It may be appropriate to evaluate this information for potential action under your area of program responsibility.

If you have any questions contact me or have your staff contact David Parrish at 7-9093 or Barry Nash at 7-9094.
